Special program on Sundays only:

Childrens' program [wave length not given]

RADIO LISTENER MENTIONS "VOICE" -- Han Ch'iao Jih Pao, 27 Sep 49

Following is a letter from a radio listener in Kedah, Malay Peninsula:

Yesterday I heard a program of the Wu-han People's Government Broadcasting Station on a wave length of 30.8 meters, which is between the Pei-p'ing station and that of "The Voice of America." Reception was better than that of the Pei-p'ing station; the program lasted from 6 o'clock until 9, but the Pei-p'ing station continued broadcasting until 11.
